Covering Treatment of Dermal Tumors, Warts, and Viral Infections of the
Respiratory Tract in Humans Using Heat-Killed P. Acnes
(P. Acnes Treatment of Planter's Warts)
Our File No. 448269-6

Dear Mr. Edwards:

On October 11, 2001, we sent you a letter requesting that you join the above-referenced United States Patent Application as a co-inventor with Dr. Kent R. Van Kampen via Certified Mail. We also sent you additional copies of the patent application which was filed on October 13, 2000 and the Declaration and Power of Attorney document that must be filed immediately with the United States Patent and Trademark Office. A duplicate copy of our October 11, 2001 letter is enclosed with this mailing. Additionally, we have also enclosed another copy of all of the documents sent to you on October 11, 2001.

OFFICE OF PETITIONS

DORSEY & WHITNEY LLP

On several different occasions, and most recently on October 11, 2001, we have requested that you review the United States Patent Application for understanding and accuracy, sign and date the Declaration, and return the same to us via Overnight Mail for immediate filing in the United States Patent Office. Alternatively, on October 11, 2001, we asked you to notify us in writing if you had decided not to join the patent application as a co-inventor. We have not yet received any response from you.

Please contact us immediately upon your receipt of this letter to let us know of your intentions regarding the prosecution of the patent application. We need to receive a signed Declaration and Power of Attorney document or a written statement indicating that you will not join the patent application as a co-inventor no later than October 24, 2001.

As we indicated in our October 11, 2001 letter, if the signed Declaration is not filed with the Patent Office, the patent application may become abandoned, and rights to the invention may be lost. Therefore, if we do not hear from you on or before October 24, 2001, we will consider your conduct a refusal to cooperate with the filing of the patent application and will take the necessary steps to proceed with the prosecution of the patent application without you.

Very truly yours,

DORSEY & WHITNEY LLP
